ABOUT

I'm a passionate developer with a strong foundation in front-end and back-end development, using various frameworks and languages to create responsive, user-friendly websites. I have a keen interest in ML and NLP, with project experience in these areas. I'm excited to contribute to team projects and grow in the field of web development.

EXPERIENCE

Open Source Contributor May 2024 - Aug 2024
GirlScript Summer of Code (GsSOC)

Contributed to various open source projects under the GsSOC initiative, focusing on enhancing project features, fixing bugs, and improving documentation. Recognized as one of the top 1000 contributors out of a total of 17,000 participants.

PROJECTS

Sanchari - Travel Planning App [GitHub](#)
A React Native app that can plan trips in advance, based on user preferences using Gemini API. Used Firebase for authentication and storage purposes.

COVID-19 Report

Built Power BI report that provides an analysis on COVID-19, using visualizations. Loaded data from Amazon S3 into Snowflake and then into Power Bi. Used Power-Query to clean, aggregate and prepare data.

Sports-Scheduler Web App [GitHub](#)

This is a Sports Management System that allows administrators to manage sports and sessions, and players to join sessions. This includes Player and Admin authentications and respective dashboards.

Basic Search System - Amazon Dataset [GitHub](#)

Created a general product search system on Amazon dataset that searches and recommends the top 10 products based on user preferences. This even works when the words are mis-spelt.

EDUCATION

2021 - 2025	BTech CSE Vishnu Institute Of Technology	(CGPA: 9.1/10.0)
2019 - 2021	Class XII Narayana Junior College	(Percentage: 96)
2018 - 2019	Class X Bhashyam Schools	(GPA: 9.8/10.0)

CODING & BLOGS
